

Our company Enetel Solutions is one of the youngest companies within Roaming Group, and as such we got an opportunity to play with new ideas, come up with creative solutions, and add values to the world of information technologies. Teamwork is the way how we do it! With our team growing each day, we aim to create solutions that will improve IT experience of the world around us. We are ready to receive and share knowledge with new innovative people who are devoted and innovative in achieving our mutual goal. If you think you are ready, step up and join us!

SENIOR LINUX ADMINISTRATOR

We are looking for engineers who enjoy work in a collaborative environment where cross-functional teams work closely together in order to get things done. In our ego-free environment talent matters more than title, and the big idea can come from anyone and anywhere.

You will be able to work in a variety of client settings and platforms and collaborate in a smart environment where you can bring in your ideas. There is plenty of room to grow at Enetel Solutions.

What you will be doing:

- Linux server maintenance, monitoring, security hardening, performance review
- Managing MySQL database operations and all things database related
- Researching new platform architectures to support business requirements
- Interact with customer and provide technical support via our helpdesk and live chat

What we'd like to see:

- 5+ years of supporting Linux Servers in a production environment
- Problem solving skills, curious personality and keen interest in following emerging technologies
- Strong experience with shell scripting (preferably BASH)
- Experience with Red Hat (CentOS) and Ubuntu distributions
- Excellent understanding of relational database concepts and extensive experience working with MySQL or PostgreSQL replication and clustering

It will be considered a distinct advantage if you have:

- Work experience with E-Commerce solutions
- Work experience in formal Agile/DevOps environment
- Experience with Apache Solr is a plus
- Experience with NoSQL databases (MongoDB, CouchDB)
- Experience with load balancing technologies
- Experience with virtualization and/or cloud Infrastructure (AWS)
- Experience with Docker, Puppet, Ansible or Chef is a plus

In return we offer:

- Exciting and friendly environment
- An opportunity to take part in challenging, cutting-edge projects
- Development and career path with excellent career prospects
- Competitive salary plan
- Long term job security

If you see yourself in this position and you meet the requirements please submit your up-to-date CV to CV@enetelsolutions.com
